GENERAL WHOLESALE CATALOGUE

OF

Florists' Bulbs, Plants and Seeds

This list is our regular **Wholesale Trade Catalogue** (fall edition) of Bulbs, Plants and is forwarded only to parties whom we know to be in the florist business.

IT PAYS TO BUY THE BEST BULBS PROCURABLE.

The slight difference in cost between first-grade and second-class stock should influence a practical florist in favor of the cheaper. The stock offered in the following is warranted to be as represented—in each and every instance **selected, high grade, superior to none, the best to be procured at any price.**

We do not claim to supply the cheapest bulbs. We do claim to furnish on all orders **best bulbs** at lowest market prices—quality always considered.

Save Time and insure quick execution of orders by observing the following brief

RULES AND TERMS.

This list cancels all previous quotations.

All orders from unknown correspondents must be accompanied with remittance or factory reference. Otherwise, goods will only be sent C.O.D.

No perishable goods are sent C. O. D., unless a sufficient remittance accompanies order guarantee acceptance on arrival.

Remittances should be made by Post-Office or Express Money Order, Bank Draft on New York, or Money in Registered Letter.

Orders are solicited at as early a date as possible, that we may have ample time for execution. Please write plainly name, post-office, express office, and any other necessary information as to the best method of forwarding.

Prices are quoted subject to short crops, to change without notice, and to the goods being unsold upon receipt of order. We would advise dealers to place their orders early. All imports and domestic bulbs that we offer are direct from the most reliable growers, and can be depended upon as being first-class in every respect. **25 bulbs furnished at 100 rate, 250 at 1,000**

Complaints, if any, must be made within **five days after receipt of goods**, to receive recognition.

No charge is made for cases or packing, nor for delivery to freight or express depot. All plants and bulbs shipped by express, florists receive the benefit of the 20 per cent. reduction in express charges, if packed in closed boxes.

Our pots are all "standard" sizes, and measurements of height of plants are from top of the pot.

Very Important—Time of Delivery and Shipment of Bulbs.

When sending orders for a miscellaneous lot of bulbs **do not fail** to state whether you wish each variety shipped as soon as ready, or the order held until all are ready for delivery. Then make one shipment of the whole. Please state time and mode of shipment plainly, or we will use our best judgment as to route.

Following will be found a schedule of the months in which the leading varieties can be delivered:

complete list of all varieties of bulbs for florists' use will be found in the pages following abbreviated list.

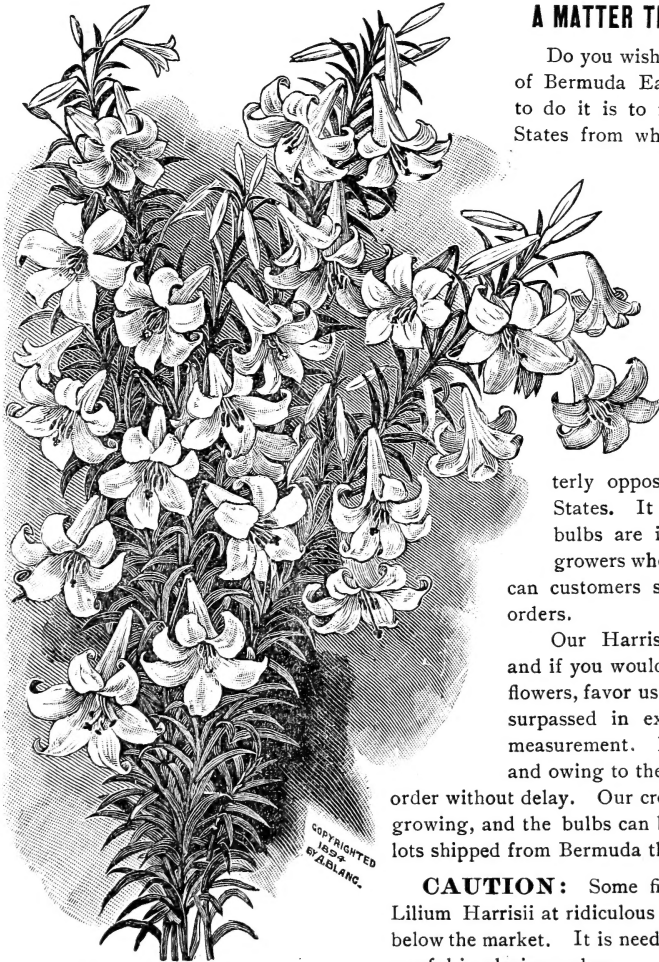

The True Bermuda Easter Lily

LILIUM HARRISII.

Our Stock Comprises a Very Large Proportion of the Entire Bermuda Crop.

Order your supply of this important article as soon as possible, as the present indications are that there will be no bulbs on the market during the latter part of the season.

Crops were greatly reduced by the severe storms during the spring.

BERMUDA EASTER LILY.

A MATTER THAT SHOULD BE CONSIDERED.

Do you wish to help discourage the exportation of Bermuda Easter Lily flowers? The only way to do it is to refuse bulbs shipped to the United States from which the flowers have been cut and offered in competition with those grown by the American Florists.

When comparing our prices, please remember that **we absolutely guarantee** that no flowers have been cut from our *Lilium Harrisii* bulbs and shipped to America, a course practiced by a majority of the Bermuda growers, and which cannot be too bit-
terly opposed by the florists of the United States. It is not a question as to whether the bulbs are injured by this malpractice. The growers who avoid this injustice to their American customers should receive the benefit of their orders.

Our *Harrisii* bulbs are guaranteed as above, and if you would help stop the exportation of these flowers, favor us with your order. Our stock is unsurpassed in excellence, guaranteed fully up to measurement. Bulbs are now ready for delivery, and owing to the short crop would ask customers to order without delay. Our crops were personally inspected while growing, and the bulbs can be relied upon to be one of the best lots shipped from Bermuda this season.

CAUTION: Some firms have been and are yet quoting *Lilium Harrisii* at ridiculous prices, ranging from 25% to 40% below the market. It is needless for us to advise customers to be careful in placing orders.

WHITE ITALIAN HYACINTHS.

(Pink-Skin.)

Our stock of this is the TRUE WHITE ITALIAN Hyacinth, which cannot be sold for less. The cheaper stock offered is simply the Rose Roman. Per 100, \$2.25; per 1000, \$20.00.

DUTCH ROMAN, OR MINIATURE HYACINTHS.

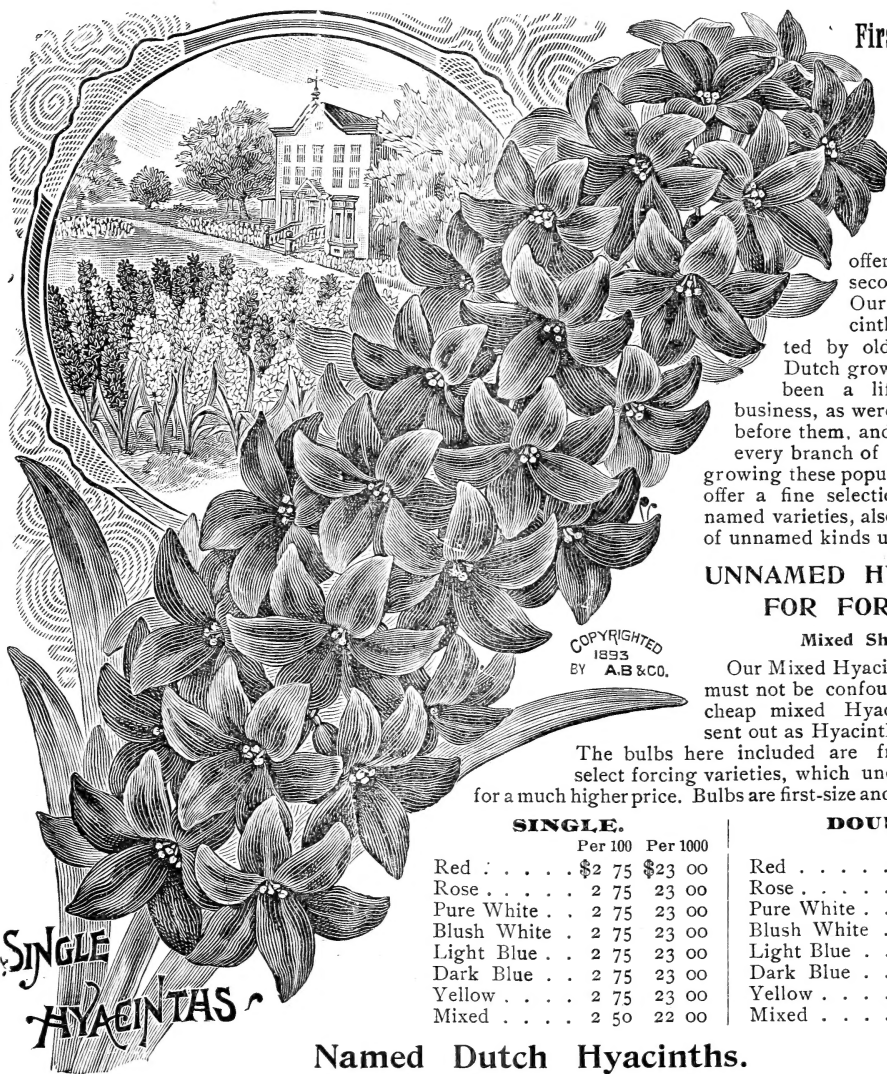

While being cheap, these Hyacinths are especially recommended to plant in succession with French Roman Hyacinths. They are not quite so early as the French Romans, but produce fine large flower-spikes at a much less cost for the bulbs.

Miniature Hyacinth.

Dutch Hyacinths.

First Size Bulbs

of Dutch Hyacinths is the only size which will give the florist and his customers perfect satisfaction. We do not

offer or recommend second size bulbs. Our bulbs of Hyacinths are cultivated by old, experienced Dutch growers, who have been a lifetime in the business, as were their fathers before them, and are expert in every branch of the science of growing these popular bulbs. We offer a fine selection of the best named varieties, also special prices of unnamed kinds under color.

UNNAMED HYACINTHS FOR FORCING.

Mixed Shades.

Our Mixed Hyacinths for forcing must not be confounded with the cheap mixed Hyacinths usually sent out as Hyacinths for bedding.

The bulbs here included are from the most select forcing varieties, which under names sell for a much higher price. Bulbs are first-size and fully matured.

Narcissus, Bicolor Horsfieldii.

Chinese Sacred Lily (Narcissus)

OR

Flower-of-the-Gods; also popularly known as **Joss Flower, Water Fairy Flower and Chinese New Years Lily.**

This is a variety of Polyanthus Narcissus, known and grown by almost every person. It may be kept in a dormant state until early spring, and is in great demand during the fall and winter. They are grown chiefly in water, with pebbles for support. Flowers are very fragrant and pretty; pure white with yellow center. Blooms six weeks after planting.

Bermuda-grown bulbs, per doz., 60 cts.; per 100, \$4; per 1000, \$30.

China-grown bulbs, per doz., 80 cts.; per 100, \$5.50; per 1000, \$40. Mat of 120 bulbs, \$6.

Chinese Sacred Narcissus.

Single. Sweet-scented. 10 cts. per doz.; 50 cts. per 100; \$4.50 per 1000.

Campanelle. Large bulbs. 15 cts. per doz.; 70 cts. per 100; \$5 per 1000.

Crocus.

NAMED CROCUS.

These are all choice selected bulbs, and can be depended upon for shade and richness of color. They produce larger and finer flowers than the mixed sorts, and are more desirable for growing in pots. For that purpose the difference in cost should not be considered. For planting to design or in letters the named sorts are also greatly superior.

Prices, doz., 10 cts.; 100, 50 cts.; 1000, \$4.00.

When sent by mail, add 15 cts. per hundred for postage.

Albion. Fine striped.

Baron von Brunow. Deep blue; very rich.

Florists' Lilies.

Bermuda Easter Lily.

See page 1.

Lilium Longiflorum.

Some growers prefer this Lily to Lilium Harrisii on account of its making a more bushy and better pot plant. We offer both Bermuda and Japan grown bulbs.

BERMUDA GROWN.

5 to 7 inches in circumference, per doz., 55 cts.; per 100, \$3.50; per 1000, \$30.

7 to 9 inches in circumference, per doz., 85 cts.; per 100, \$6; per 1000, \$50.

JAPAN GROWN.

5 to 7 inches in circumference, per doz., 35 cts.; per 100, \$2.25; per 1000, \$20.

7 to 9 inches in circumference, per doz., 60 cts.; per 100, \$4; per 1000, \$38.

Lilium Candidum.

(Annunciation Lily, St. Joseph's Lily).

The well-known white Lily of the garden. Hardy everywhere, and easy of culture. Extensively forced by florists.

Selected large bulbs, \$2.50 per 100; \$20 per 1000.

Lilium Auratum.

(Golden-banded Lily of Japan).

(October Delivery).

Large bulbs, 7 to 9 inches, per doz., 60 cts.; per 100, \$4; per 1000, \$35.

Extra size bulbs, 9 to 11 inches, per doz., \$1.00; per 100, \$6; per 1000, \$55.

Lilium Speciosum Album.

(October Delivery).

The purest white, and a very handsome flower. Extra large imported bulbs, 7 to 9 inches, per doz., \$1.25; per 100, \$8; per 1000, \$75. 9 to 11 inch bulbs, per doz., \$1.75; per 100, \$10; per 1000, \$90.

Lilium Longiflorum.

Lilium Speciosum Rubrum.

(October Delivery).

White, shaded with deep rose and spotted with red. Extra large imported bulbs, 7 to 9 inches, per doz., 85 cts.; per 100, \$5.00; per 1000, \$45.00; 9 to 11 inch bulbs, per doz., \$1.25; per 100, \$7; per 1000, \$60.

Lily of the Valley.

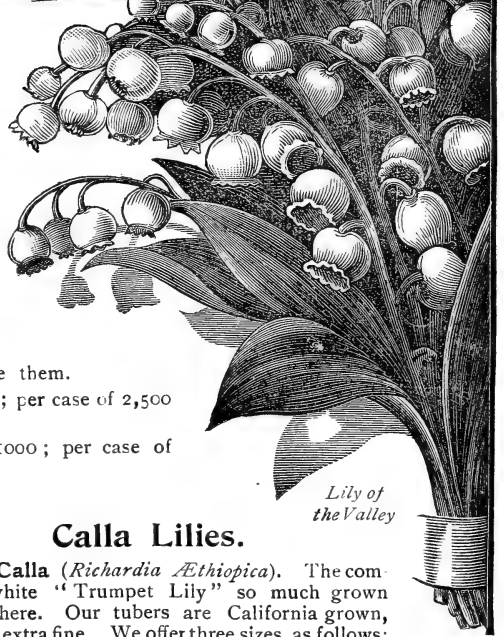

(READY IN NOVEMBER.)

Our Lily of the Valley Pips, for forcing, are not known by any fancy name, but always have been and will be second to none in quality. They are grown in the best soil, adapted to their perfect development for forcing purposes, both early and late. The crop was one-third short last season, and present reports indicate a similar shrinkage this year, in consequence of which prices are somewhat higher. Selected quality Pips, similar to ours, cannot be offered at a lower rate. This like all other important Florists' stock, is an article in which quality is of much more importance than price. Cheaper grades are offered, but we do not handle them.

Berlin Pips, for early forcing, \$12.00 per 1000; per case of 2,500 Pips, \$26.00.

Hamburg Pips, best for late forcing, \$12.00 per 1000; per case of 2,500 Pips, \$26.00.

Strong Clumps, \$2.25 per doz.; \$17.00 per 100.

Calla Lilies.

White Calla (*Richardia Aethiopica*). The common white "Trumpet Lily" so much grown everywhere. Our tubers are California grown, and are extra fine. We offer three sizes, as follows:

Extra large tubers, over six inches in circumference, \$1.50 per doz.; \$10 per 100; \$90 per 1000.

Large tubers, over 4 inches in circumference, \$1.25 per doz.; \$8.50 per 100; \$80 per 1000.

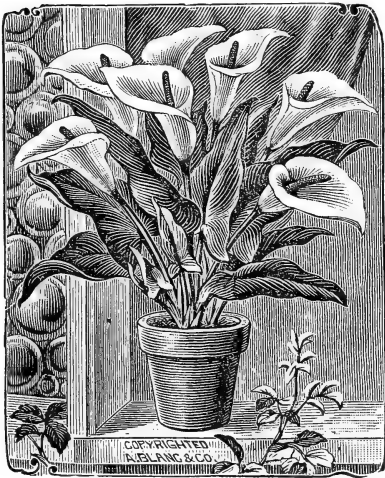

Good flowering tubers, over 3 inches in circumference, \$1 per doz.; \$6.75 per 100; \$60 per 1000.

Spotted Calla (*Richardia alba maculata*). A variety of recent introduction, with the leaves spotted with white; handsome both for foliage and flowers; very useful for out-door work. 75 cts. per doz.; \$5 per 100; \$45 per 1000.

Black Calla (*Arum sanctum*). The leaves resemble those of the common Calla, but the flower is larger and dark purple. The spadix is black.

Selected large bulbs, 15 cts. each; \$1.25 per doz.; \$8 per 100

Second size flowering bulbs, 10 cts. each; 80 cts. per doz.; \$6 per 100.

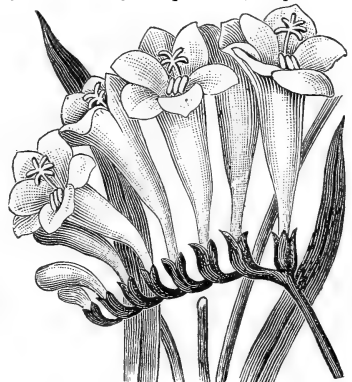

Calla Lily.

Freesia Refracta Alba.

There is so much to recommend this bulb that we cannot wonder at the extraordinary quantity sold each year to florists for forcing. It is one of the easiest and simplest bulbs to flower, and produces more blooms for the size of the bulb than any other article planted. The flowers are almost pure white, delicately perfumed, and possess a richness which is surpassed by few other flowers. They are of wonderful durability, and the buds that have not expanded when cut will come to full bloom if placed in water. There is no doubt of its being a most profitable bulb for the florists to force.

Freesia refracta alba.

Amaryllis Johnsonii.

(BERMUDA-GROWN.)

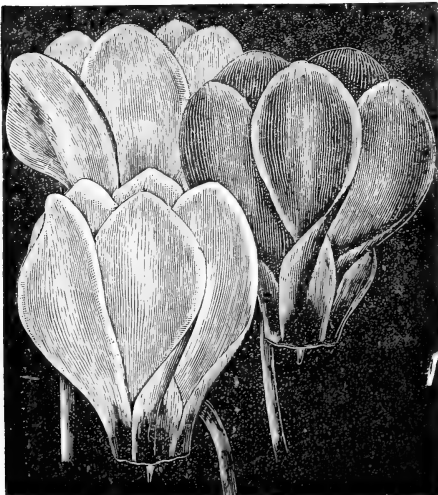

We offer very large selected bulbs of this grand Amaryllis at a price low enough to make them a profitable bulb for florists' use. The large bulbs produce immense flowers, which for rich and vivid coloring cannot be surpassed. The splendid blooms immediately attract attention. This variety is especially useful for retail trade, as the bulbs remain dormant throughout the winter and until late spring. Per doz., \$1.75; per 100, \$12.

Allium Neapolitanum.

Cyclamen persicum giganteum.

White, purple or rose, large flowered. Separate colors Per doz., \$2.25; per 100, \$15. Colors mixed. Per doz., \$1.50; per 100, \$10.

Cyclamen persicum giganteum.

Allium Neapolitanum.

Flowers white, borne in loose umbels on a scape about 15 inches high. The plant may be forced, and is very useful for bouquets. It is free from the odor of garlic, which is a characteristic of the genus. Per doz., 10 cts.; per 100, 60 cts.; per 1000, \$5.

Anemone.

Fulgens. Bright crimson; a valuable variety for forcing. Per doz., 25 cts.; per 100, \$1.75; per 1000, \$15.
Single Scarlet, Mixed. Per doz., 10 cts.; per 100, 60 cts.; per 1000, \$5.

Double Mixed. All colors. Per doz., 15 cts.; per 100, \$1; per 1000, \$7.

Chionodoxa.

Luciliæ (Glory-of-the-Snow). Flowers intense blue, shading to white in the center; 3 to 6 on a stalk about 6 inches high. Per doz., 15 cts.; per 100, 75 cts.; per 1000, \$6.
Gigantea (Giant Glory-of-the-Snow). Per doz., 20 cts.; per 100, \$1; per 1000, \$9.
Sardensis. Bright rich blue, deeper than *C. Luciliæ*. Per doz., 15 cts.; per 100, 75 cts.; per 1000, \$7.

Dicentra (Dielytra) spectabilis.

Bleeding Heart. Per doz., 50 cts.; per 100, \$3.50.

Eucharis Amazonica.

Greenhouse bulb. Used largely for forcing. Per doz., \$2; per 100, \$18.

Helleborus niger.

Christmas Rose. Quite hardy; imported clumps, useful for forcing. Per doz., \$1.50; per 100, \$12.00.

Hyacinthus candicans.

Milky white, with black center; are produced on tall stalks, and last a long time in perfection; sweet-scented. Not perfectly hardy, but excellent for pot-culture, forcing easily. 20 cts. per doz.; \$1.50 per 100; \$12 per 1000.

The Bermuda Buttercup Oxalis.

Bermuda Buttercup Oxalis.

The Oxalis is perhaps as popular and as great a favorite for home and window decoration as any other plant. This it well deserves, as no plant is more simple in cultivation or gives such a lasting profusion of blossom in so short a time after planting. The Bermuda Buttercup Oxalis is not claimed to be a strictly new plant, but a great improvement over the type to which it belongs (*Oxalis cernua*); and the introducer's description which we give herewith has been endorsed by most of the leading florists who have tried it.

"This is one of the finest winter-flowering plants for pot-culture that we have ever seen;

it is such a strong, luxuriant grower that one bulb will be sufficient for a 6 to 8 inch pot. The flowers are of the purest bright buttercup yellow. Well-grown plants

have produced as high as seventy flower-stems at one time and over 1,000 flowers in one season."

Price, per doz. 40c; per 100, \$2.50; per 1000, \$20.

Turban. Fine mixed. Per doz., 10 cts.; per 100, 40 cts.; per 1000, \$3.50.

Spiræa.

Spiræa Japonica Grandiflora. This is a grand acquisition of recent introduction, and is a great improvement over the old variety. When well-grown its flowers are of a pearly white, DOUBLE THE SIZE of the common *Spiræa Japonica*; close and compact in form, they give the effect of FOAM PILED IN PYRAMIDAL SHAPE, while the dark green fern-like leaves make a most pleasing contrast. Large flowering clumps, each, 10 cts.; per doz., 75 cts.; per 100, \$5; per 1000, \$45.

Spiræa Japonica. The ordinary sort. Strong clumps, per doz., 60 cts.; per 100, \$3.50; per 1000, \$30.

Spiræa Astilboides. A new type that is handsome and distinct, of different form to *Spiræa Japonica*, the branching habit being very well portrayed in the accompanying cut. Per doz., 65 cts.; per 100, \$4.50; per 1000, \$40.

Spiræa Astilboides.

Spiræa Astilboides Florabunda. A great improvement over *Spiræa Astilboides*, a new variety that every florist should give a trial. Per doz., \$1.50; per 100, \$10.

Snowdrops.

- Large Double.** Per doz., 20 cts.; per 100, \$1.25; per 1000, \$9.
Large Single. Per doz., 15 cts.; per 100, 75 cts.; per 1000, \$5.50.

Excelsior Dwarf Pearl Tuberoses.

A florists' bulb, of which we handle probably the largest quantity of any jobber in the United States. Our stock is not the crops of many small and inexperienced farmers, a great many of whom have no facilities for properly curing, but are carefully and scientifically cultivated on our large Tuberose plantation in North Carolina, where every modern invention for fertilizing, cultivating, curing and packing are intelligently and systematically used. We deal only in the large, selected 4 to 6 inch bulbs, the only size which will give perfect satisfaction. Per doz., 10 cts.; 100, 85 cts.; 1000, \$7.50.

Pansy Seed.

P. & M.'s Unsurpassed Strains.

Our "Unsurpassed" Pansy Seed is saved only by the best and most noted growers, and our claim that it is impossible to procure a more select strain has been fully endorsed by all florists who now sow our seed in preference to all other strains. Only by the most careful and systematic harvesting is it possible to save seed similar to ours. We offer below a fine selection of varieties, as well as our "Unsurpassed" mixture, which we strongly recommend for florists' use.

Decorative Plants.

Areca Lutescens.

PALMS.

In submitting the following list of Palms, we beg to inform our patrons that the stock which we offer is in such excellent condition that we are confident it will give the best satisfaction. The plants are well proportioned and of good stocky growth, each plant having been grown with ample room necessary for its perfect development. In fact, the stock has never been finer than at the present season, and we offer only such varieties as are the most useful to the Florist for decorative purposes. We ask a personal inspection from parties who have never purchased of us.
